

Upgrade to features and benefits of the New ELE ADR Touch Manually-Operated Concrete Machines.

Following the introduction of the new range of ADR Touch compression machines, ELE are pleased to announce the release of an upgrade package for existing machines.

This package is suitable for a wide range of ELE manually-controlled machines in service (contact our service department for details) and in most cases can fit directly to the existing machine.

Supplied complete in colour matched housing with all fittings and new replacement high quality pressure transducer this system enables users to take advantage of the latest touch screen technology **plus** enhanced data facilities.

Ordering information

EL37-4990/09 ADR Touch Head Kit to upgrade manual compression machines, 110/240Vac, 50/60Hz

- ◆ *New touch screen technology user interface reducing setup and training time*
- ◆ *Test data enhancements for improved traceability*
- ◆ *High accuracy and test repeatability*
- ◆ *3 year warranty*
- ◆ *Enhanced USB data communications between PC and machine – eliminating the need for download software.*
- ◆ *Two gigabytes of storage memory.*
- ◆ *Full customization of sample sizes – stress calculations are automatically recalculated.*

The new ADR Touch Series, with 145mm (5.7”) high resolution QVGA touch screen interface and intuitive menu-driven operation, reduces the time taken to set up the machine and perform tests, reducing the time to train staff by up to 25%.
