MICROSYSTEMS

# Microscope Assistant

Would you like to recall the microscope, illumination, and camera settings of the picture you took last week? Now you are just one click away from total recall with Leica Microsystems' integrated Microscope Assistant (Leica Application Suite Store & Recall Module).

## RECALL YOUR SETTINGS WHENEVER YOU WANT

You have an outstanding image of a specimen that you want to reproduce? How long would it take you to find out the exact settings?

Now you are just one click away from total recall with the Leica Microsystems' integrated Microscope Assistant for all coded and automated microscopes.

## MICROSCOPE ASSISTANT (LEICA APPLICATION SUITE STORE & RECALL MODULE)

- All settings of microscope, illumination and camera are stored with each image
- These specific settings can be completely recalled in seconds with one click – even after years
- Produce a series of golden pictures to serve as a reference for future images
- Increase your productivity, gain valuable time and ensure a continuously high quality of pictures for your reports and analysis
- Calibration of pictures without knowing the settings
- Recall status by selecting image in gallery and clicking recall button

## SAVE TIME

---

The Microscope Assistant allows you to benefit from the full digital integration of microscope, illumination and microscope camera.

Your results will be completely reproducible: light settings, contrasting method, magnification, and exposure time. Also details like bias of DIC, exact position of the Excitation Manager in fluorescence, and binning mode of the camera can be exactly recalled.

## SPEED UP

---

Easy and intuitive to handle – the current settings are stored together with the acquired image. The specific settings of every acquired image can be displayed and recalled at any time.

The microscope, illumination, and the microscope camera are automatically preset to the stored status. Whenever you want.

## PERFECT APPLICATIONS

---

This module provides the possibility to compare different samples under exactly the same conditions. Re-examine the same sample with settings you used maybe a month before. Therefore, this software module is ideally suited for all industrial and life science applications.

The statement by Ernst Leitz in 1907, “*With the User, For the User,*” describes the fruitful collaboration with end users and driving force of innovation at Leica Microsystems. We have developed five brand values to live up to this tradition: Pioneering, High-end Quality, Team Spirit, Dedication to Science, and Continuous Improvement. For us, living up to these values means: **Living up to Life.**

Leica Microsystems operates globally in three divisions, where we rank with the market leaders.

#### LIFE SCIENCE DIVISION

The Leica Microsystems Life Science Division supports the imaging needs of the scientific community with advanced innovation and technical expertise for the visualization, measurement, and analysis of microstructures. Our strong focus on understanding scientific applications puts Leica Microsystems’ customers at the leading edge of science.

#### INDUSTRY DIVISION

The Leica Microsystems Industry Division’s focus is to support customers’ pursuit of the highest quality end result. Leica Microsystems provide the best and most innovative imaging systems to see, measure, and analyze the microstructures in routine and research industrial applications, materials science, quality control, forensic science investigation, and educational applications.

#### MEDICAL DIVISION

The Leica Microsystems Medical Division’s focus is to partner with and support surgeons and their care of patients with the highest-quality, most innovative surgical microscope technology today and into the future.
